PROFESSIONAL SUMMARY

Software Developer with 4 years of experience building, integrating, and deploying web applications across Nigerian technology firms. Strong frontend expertise in React.js, Next.js, HTML5, CSS3, and JavaScript (ES6+), with solid backend experience using Node.js, Express.js, MongoDB, and RESTful APIs. Proven ability to improve delivery efficiency through reusable UI components, streamlined API testing with Postman, and resolution of cross-browser and performance issues. Experienced in Git-based collaboration, agile workflows, and developing responsive, user-focused applications. Open to relocation.

TECHNICAL SKILLS

Backend Development

- Node.js, Express.js, RESTful API design, JSON
- MongoDB (schema design, CRUD operations)
- API testing, validation, and debugging with Postman

Frontend Development

- HTML5, CSS3, JavaScript (ES6+)
- React.js (component-based architecture, hooks, state management)

UI & Styling

- Tailwind CSS, Bootstrap
- Responsive and mobile-first design
- Cross-browser compatibility

Integration & Data Handling

- REST API integration and frontend API consumption
- Client-server communication and error handling

Deployment & Tools

- Git & GitHub (version control, collaboration workflows) Vercel & Render (cloud deployment, environment configuration)

Engineering Best Practices

- Clean, maintainable, and scalable code
 - Reusable components and modular architecture
 - Performance optimization and debugging
 - Production-ready application development
-

WORK EXPERIENCE

Backend Developer

SkillBoost Africa Nigeria Limitet

August 2025 – may 2026

- Achieved successful delivery of client-facing full-stack web applications by developing and integrating scalable frontend and backend features aligned with business objectives.
 - Generated faster development cycles by integrating and validating RESTful APIs, reducing debugging time and enabling quicker, more reliable deployments.
 - Improved UI consistency and development efficiency by building reusable React.js components and standardizing design patterns.
 - Enhanced application reliability by translating business requirements into functional technical solutions in collaboration with stakeholders.
 - Supported company revenue growth by delivering maintainable, production-ready systems that minimized post-deployment issues and improved client retention.
-

Junior Developer

Imagetech Data and Technology Limited – Ado Ekiti, Nigeria

February 2023 – August 2025

- Built responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Developed and maintained WordPress-based websites and implemented custom UI features.
- Converted Figma mockups into production-ready React.js and JavaScript interfaces using clean, maintainable code.
- Diagnosed and resolved cross-browser compatibility issues across Chrome, Firefox, Safari, and Edge.
- Applied Git and GitHub workflows for version control, structured code reviews, and team collaboration.
- Built and deployed responsive web applications for clients within a digital solutions environment.

Frontend Development Trainee

DigitalCore Technologies – Ado Ekiti, Nigeria

January 2022 – January 2023

- Learned and applied HTML, CSS, and JavaScript fundamentals to build responsive web pages.
- Practiced creating user interfaces following modern web design principles.
- Gained foundational experience with React and component-based development.

- Used Git and GitHub to manage and track code changes during development.
 - Built small projects to strengthen frontend development and problem-solving skills.
-

EDUCATION

BSc. Electrical Engineering

Ekiti State University, Ado Ekiti, Nigeria

2024

West African Examination Council (WAEC)

New Era College, Ode Ekiti, Nigeria

2017

PROJECTS

Event Management and Ticketing System

- Achieved successful delivery of a full-stack platform enabling event creation, registration management, and online ticket purchasing.

Movie Discovery Application

- Built a searchable movie platform that dynamically fetched data from external APIs and enhanced user experience through responsive design and interactive search.

Restaurant Website

- Designed and developed a business website with menu pages, enquiry forms, and mobile-friendly layouts to improve online visibility and user engagement.

Banking Application

- Built and maintained backend services supporting user authentication, transactions, account management, and API integrations, with a focus on performance and data security.

Personal Portfolio Website

- Built a personal portfolio website showcasing technical skills, projects, and GitHub repositories, with an intuitive contact section to support networking opportunities.
