PROFESSIONAL SUMMARY

Software developer with 4 years of experience building and integrating web applications across Nigerian technology firms. Skilled in frontend development with React.js, Next.js, HTML5, CSS3. with backend experience in Node.js, Express, MongoDB, and REST API integration. Improved delivery efficiency by building reusable UI components, streamlining API testing with Postman, and resolving cross-browser and performance issues. Experienced in Git-based collaboration, agile workflows, and developing responsive, user-focused applications. Open to relocation.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js
- Backend: Node.js, Express, REST API, JSON, MongoDB, Postman,
- Styling: Tailwind CSS, Bootstrap, Responsive Design
- Tools: GitHub, Chrome DevTools, Figma, Vercel, Render
- Integration: REST APIs, API Consumption
- Best Practices: Clean Code, Component Reusability, Cross-Browser Compatibility, Performance Optimization

WORKING EXPERIENCE

Backend developer

August, 2025 - Present

Name/Location: SkillBoost Africa Nigeria Limited

- Developed and integrated full-stack web features for client-facing applications at a technology training firm.
- Built reusable React.js components to standardize UI patterns and reduce development time for future feature releases.
- Integrated REST APIs and validated request-response workflows using Postman, improving debugging efficiency and supporting faster deployments.
- Optimized application performance through code splitting, asset compression, and accessibility improvements to enhance speed and usability.

Frontend Developer

February, 2023 - August, 2025.

Name/Location: Imagetech Data and Technology Limited Ado Ekiti, Nigeria.

- Built responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Developed WordPress-based websites and implemented UI features.
- Collaborated with designers and developers using Git for version control.
- Identified and resolved UI issues.
- built, and deployed responsive web applications for clients in a digital solutions environment.
- Converted Figma mockups into production-ready JavaScript and React.js interfaces with clean, maintainable code.
- Diagnosed and resolved cross-browser compatibility issues across Chrome, Firefox, Safari, and Edge to ensure consistent user experience.

- Applied Git and GitHub workflows to support version control, structured code reviews, and team collaboration across shared codebases.

Frontend Development Trainee

Jan, 2022 - Jan, 2023.

Name/Location: DigitalCore Technologies, Adebayo, Ado Ekiti, Nigeria.

- Learned the fundamentals of HTML, CSS, and JavaScript to build responsive web pages.
- Practiced creating simple user interfaces and layouts following modern web design principles.
- Gained basic experience with React and component-based development.
- Used Git and GitHub to manage and track code changes while learning version control.
- Built small practice projects to improve frontend development and problem-solving skills.

EDUCATIONAL INFORMATION

- **BSc Electrical Engineering**
Ekiti state University, Ado Ekiti, Nigeria
2024
- **West African Examination Council**
New era college, Ode Ekiti Nigeria
2017

PROJECTS

EVENT MANAGEMENT AND TICKETING SYSTEM

- It allows users to create events, manage registrations, and purchase tickets online.

WEATHER FORECAST APPLICATION

- Developed a real-time weather dashboard that integrated third-party API data for live weather updates and forecasts. Implemented a responsive, mobile-first interface to support seamless performance across devices.

MOVIE DISCOVERY APPLICATION

- Built a searchable movie platform that dynamically fetched and displayed data from external APIs. Improved user experience with interactive search functionality and responsive design.

RESTAURANT WEBSITE

- Designed and developed a business website featuring menu pages, enquiry forms, and mobile-friendly layouts. Created a clean and professional web presence to support online visibility and user engagement.

BANK APP

- Built and maintained backend services for a banking application, supporting user authentication, transactions, account management, and API integrations. Focused on performance and data security within backend service delivery.

PERSONAL PORTFOLIO WEBSITE

- Built a personal portfolio website to showcase technical skills, projects, and GitHub repositories. Designed an intuitive contact section to support networking and employment opportunities.
